Our unique perspective, innovative Made in Italy style and exceptional quality are evident in every item we make.

Our reason for being? To help people to express themselves artistically thinking outside the box, to play a part in preserving priceless memories, and to encourage sharing creativity.

We consider ourselves to be a family with a shared vision: a workplace environment made of good humor, strong ties, positiveness, a pinch of craziness and mutual support, be good stewards of the planet, all while creating a business that will last for generations to come.

## SIGN OF THE TIMES

— COLLECTION —

The sign of the times is usually linked to disapproving, something that is typical of the bad way things are now. On the other side, the sign of the times is marked by changes that indissolubly link past, present and future. Some call it progress.

A history as long as humankind. From alchemists in search of the philosopher's stone, to the discovery of the atom and DNA. From the study of birds, to the airplanes and interstellar flight. From the study of human anatomy, to artificial intelligence. From the classification of plants, to chemistry and medicine.

Positive or negative? You choose, building the story of your favorite pictures with this collection that combines past and present in warm and vibrant colors.

## NOTRE VIE

— COLLECTION —

Jacques Prévert is one of the most loved poets by Ciao Bella. Some of us grew up carrying a book of his poetry rolled up in back jeans pocket or purse. One of those books that you fold, crumple, underline, on which you write notes. You know that sooner or later it will start to lose pages but its content will stay with you forever, printed in your heart. Les enfants qui s'aiment, Trois allumettes, Cet amour, Barbara, Le jardin...

The watercolors and bright summer color palette we've created for this collection are dedicated to Prévert's poems, to the city as perhaps he would have told it today through the little stories of women and men who love and live their life in a city that is not just a city but a world.

## AESOP'S FABLES

— COLLECTION —

"Mom, tell me a story!". Many children at bedtime, in various parts of the world, have heard the story of the Hare and the Tortoise, the Grasshopper and the Ant, the Country Mouse and the City Mouse, and more.

Their author, a storyteller from ancient Greece, has given all future generations short fairy tales known in many cultures with small variations. Today as in the past, they contain valuable life lessons that we can relate to.

With this collection we present our favorite Aesop's fables, beautifully illustrated by our amazing artists, who have created a small country world full of details, a gorgeous palette of modern vintage colors, and new ideas for your layouts!
