Midnight Spell

Among all fairy tales, Cinderella by Charles Perrault shines among the others. This timeless tale transports us to an enchanted and romantic world of elegance and grace in a swirl of delicate lights and colors. The magic of the story begins when a fairy godmother, with a magic wand and a pinch of stardust, transforms a pumpkin into a glittering carriage, rags into sumptuous dresses and the dream begins. At the castle, Cinderella dances with Prince Charming, but time passes inexorably: midnight strikes and Cinderella must escape before the magic dissolves, losing one of her glass slippers. But fate will be able to lead the prince back to his eternal love. A fairy tale that makes you daydream and that teaches, with a happy ending, that all dreams can come true.

WINTER JOURNEY

It is with winter that the atmospheres of the north, indeed of the Great North, the one painted and narrated over the centuries by artists, poets and writers, return to the collective imagination. Distant geographies, endless expanses, silent woods, snow-covered villages, enchanted animals, fairy tales come to mind. North is not only a direction but also a suggestion: the set of those landscapes that seduce in their essentiality and their candor. Let's think of the white that envelops everything like a cloak, the splendor of the ice that shines in the sun: this collection pays homage to uncontaminated nature with a play of shapes and delicate contrasts.

INDIGO

Indigo is the new Ciao Bella collection inspired by the secret Japanese art "Kintsugi" of which it becomes a metaphor.

Through this sublime technique gold becomes an integral part of the object which, breaking, gives new life to the ceramic through the fracture lines, increasing its value, thanks to its scars. The art of embracing the damage, of not being ashamed of the wounds, is the delicate symbolic lesson suggested by the ancient Japanese art of Kintsugi to which our indigo dream collection is inspired.

DELUXE EDITION

LONDON'S CALLING

London's Calling is the new creative experience designed by Ciao Bella. The winter atmospheres refer to a London suspended in time, where colors and images invite us to walk between traditional English graphics and suggestive landscapes. The iconic figures of the Royal House are identified in chess; history is described in fragments of ancient newspapers; the snow and the dim light of the street lamps; the London night sky with gray and blue shades behind the old shops: each element suggests the discovery of an imaginary journey through the typical London alleys.

DREAMLAND

Surrealism has taught us to explore the boundary between dream and reality: falling in love with it was inevitable. "Dreamland" is a surrealist pop journey into a world populated by fantastic animals and fascinating characters which move within a dreamlike and evanescent universe. This collection is the celebration of our love for surrealism, through innovative and not at all obvious graphics. In the dimension of dreams, everything is possible, and this collection invites us to challenge the limits of the possible, giving life to creations capable of surprising adults and children.

COZY MOMENTS

"How many lessons of faith and beauty we should lose if there was no winter in our year".

Thomas W. Higginson's words tell us of a slow, poetic winter, of a melancholy beauty. The winter is described in "Cozy Winter" through the elegant shades of white and gray, the delicacy of the cotton flakes, the enveloping warmth of wood.

Dreamy and surreal landscapes, the white fur of the animals melted with the snowy atmospheres, lanterns and elements which show the discreet man's presence.

LE CYGNE NOIR

COLLECTION

LE CYGNE NOIR

Ciao Bella resumes the charm of "Swan Lake", the ballet by Tchaikovsky, looking at it from another point of view. According to this new perspective, the collection provides a whole different atmosphere. The title is "Le Cygne Noir": the most hidden part of us is here represented with gentle shades and light contrasts, not without grace and elegance. This game of opposites tiptoes us in a creative ballet full of colors, feathers, curtains, and graceful details.

ENGINE OF THE FUTURE

Futuristic images, colour contrasts, steampunk atmospheres, mechanical bees and gears, bright bulbs: this new creative proposal will take you beyond space and time. With this collection, Ciao Bella suggests an Avant-Garde Design for a brand new and impactful style, in which ingenuity and creativity come together. Nikola Tesla, while he was creating, used to think: "The present is theirs, the future, for which I have really worked, is mine". Now it's up to you!

ENIGMA

Bletchley Park, 1940. Soak up on the utmost secrecy of the codebreaking centre where Alan Turing became the father of computer science. This collection pays a tribute to the brave women of World War Two who intercepted transmissions, served as cryptanalyst, mathematicians and intelligence agents, contributing to decipher Enigma. Textures and illustrations have been designed to restore the atmosphere of the mid-'40s office place, as well as the warm color palette of green and sepia.

THE LITTLE PRINCE

The Little Prince is one of those rare books loved by both children and adults alike. It often accompanies from childhood to adulthood, remaining one of the favorite books. Its secret is probably that it draws portraits of grown-ups as being hopelessly narrow-minded. In contrast, children come to wisdom through willingness to explore the world around them and within themselves. A long-term life lesson. Keeping in mind to look the world through the eyes of a child, our artists gave the best creating original illustrations, by putting at your disposal an amazing collection of papers and polymer stamps!

THE GIFT OF LOVE

Winter is the gift season. The incredible true story of love between a girl, an Alaskan Malamute and Arabian horse, beautifully illustrated by our artists, made us think that the best gift takes time, cannot be bought with money but it's built slowly in the heart. Above all, it knows no boundaries of race. The gift of love. This collection in a warm color palette powder pink, orange and ice blue, will accompany you in the gift season, inspiring to think with whom and how to expand the sharing of your gift. The more it extends the more it will warm your heart and make you feel good, like a glass of hot apple cider in a cold winter day.

AESOP'S FABLES

Many children at bedtime, in various parts of the world, have heard the story of the Hare and the Tortoise, the Grasshopper and the Ant, the Country Mouse and the City Mouse, and more, in response to their request. Their author, a storyteller from ancient Greece, has given all future generations short fairy tales known in many cultures with small variations. Today as in the past, they contain valuable life lessons that we can relate to. With this collection we present our favorite Aesop's fables, beautifully illustrated by our amazing artists, who have created a small country world full of details, a gorgeous palette of modern vintage colors and new ideas for your layouts!

SIGN OF THE TIMES

The sign of the times is usually linked to disapproving, something that is typical of the bad way things are now. On the other side, the sign of the times is marked by changes that indissolubly link past, present and future. Some call it progress. A history as long as humankind. From alchemists in search of the philosopher's stone, to the discovery of the atom and DNA. From the study of birds, to the airplanes and interstellar flight. From the study of human anatomy, to artificial intelligence. From the classification of plants, to chemistry and medicine. Building the story of your favorite pictures with this collection that combines past and present in warm and vibrant colors.

BLUE NOTE

John Coltrane once said: "My music is the spiritual expression of what I am, my faith, my knowledge, my being. When you begin to see the possibilities of music, you desire to do something really good for people, to help humanity free itself from its hangups. I want to speak to their souls". That's why we like Jazz. It's creativity and soul expression. And New York is its perfect match. In this collection we have freed the metropolitan attitude of our designers, to create urban-looking images that can make you hear their jazz sound. All you have to do is relax and feel the groove.

DELTA

The delta is place for souls seeking peace and reassurance. Hermene Hess's Siddhartha disclosed the secret: "Have you learned that secret from the river, that there is no such thing as time? That the river is everywhere at the same time, at the source and at the delta, and that the present only exists for it, not the shadow of the past nor the shadow of the future". Soak up the atmosphere made of peaceful timeless natural landscapes, told by the incredible palette of relaxing colors we created for this collection, inspired by the Po delta, the largest Italian river, and the memories of our Art Director that spent the summer holidays over there as a child.

FROZEN ROSES

There are gardens in some ancient Italian mansions where the winter breeze clouds the pond, frosting the last rosebuds, obscuring summer's memory. Stoats play in the snow between statues, goldfinches fly on frozen fountains. With musk and white cotton snow under the feet, you may pick up an icy rose and really feel that winter has come to town. Warm red and white are the protagonists of this elegant winter collection, contemporary and at the same time classic and romantic, as always hand-drawn, to accompany you in a secret garden of a beautiful winter.
