NEW TO CIAO BELLA?

At Ciao Bella, we're in the inspiration business. Based in North Italy's beautiful city of Turin, our brands are know worldwide in hobby & craft industry.

We have a **team of artists, designers and illustrators** focused on creating beautiful items. Our mission is to create not only products but artwork to get an emotional response.

Our product lines span **more than 50 collections**. Ciao Bella's design begins with original illustrations and color palettes, often bold and unconventional, and **the use of the best materials and processes** which result in exquisite creations. Our unique and contemporary Made in Italy style, and high quality, are evident in every product we make.

Our reason for being? To **help people to express themselves artistically thinking outside the box**, to play a part in preserving priceless memories, and to encourage sharing creativity.

We consider ourselves to be a family with a shared vision: our workplace environment is made of good humor, strong ties, positiveness, and a pinch of craziness; trying at our best to be good stewards of the planet, all while creating a business that will last for generations to come. **We're proud to use sustainable materials, to support independent artists** and to be actively involved in our community.

Management, and Production Team leaders, in Ciao Bella Italy headquarters

SONORA

— COLLECTION —

There are places where time is nothing, they remain unchanged. The desert has its own slow but steady clock. Anyway there are very different deserts. The one that has always fascinated us the most, is located in Mexico and it's incredibly full of life and colors, like the country it belongs to.

With this collection with vibrant and spicy colors, we take you in our journey to one of the most beautiful places on the planet, to be preserved, where beautiful gardens flourish in the desert.

And if anyone had some doubts that Ciao Bella likes cacti, well, we love cactus! And you? We can't wait to see the amazing projects the papercrafters will create with these artworks.
