1

2

Cut the scrapbooking for every part of the base..

Measure for each detail, leave 2 mm (height and length).

For example:

For the cardboard 18x18 cm cut the scrapbooking paper 17.8x17.8 cm (x2, front and back);

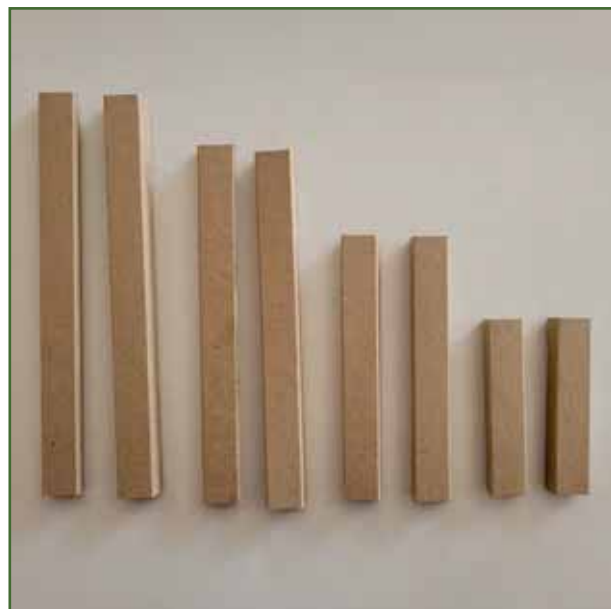

For the cardboard 4x18 cm cut the scrapbooking paper 3.8x17.8 cm;

For the cardboard 3x18 cm the scrapbooking paper 2.8x17.8 cm;

For the element 16x18 cut the image of the window with the princess and scrapbooking stripes as a base (the window has smaller dimensions, so add some paper on the right side, on the left side, and on the bottom of it). Cut the glasses from the window. Create a big rectangular window in the base kraft cardboard, leaving 2.5 cm from the right and left edge and, 1 cm from the upper edge and 7.5 cm from the bottom edge. Stick the scrapbooking paper on each cardboard.

- 3** Do the binding to create the columns. Each cardboard must follow this binding scheme, 1 cm – 1.5 cm -1 cm-1.5 cm; then fold and glue it, creating a rectangular column.
- In total there are 8 columns: 2x 18 cm; 2x 16 cm; 2x 12 cm and 2x 8 cm.

- 4** Cut the scrapbooking paper for the columns:

- For the columns of 18 cm: 4 stripes 0.8x18 cm and 2 stripes 1.3x18 cm, stick the paper (on 2 sides and the front part of each column).
- For the columns of 16 cm: 4 stripes 0.8x16, stick the paper only on the sides on the columns.
- For the columns of 12 cm: 4 stripes 0.8x12 cm and 2 stripes 1.3x12 cm, stick the paper (on 2 sides and the front part of each column).
- For the columns of 8 cm: 4 stripes 0.8x8 cm and 2 stripes 1.3x8 cm, stick the paper (on 2 sides and the front part of each column).

Cut the decorative elements, cover the border of the cut elements with Chiaroscuro Ink Pad Muted Copper.

5

Take the base completed with the scrapbooking paper and stick the columns of 18 cm on the right and the left side; glue the side of 1.5 cm

Stick on it the two cardboard stripes of 3x18 cm, already prepared with the scrapbooking paper.

Glue the fussy cut elements on the stripes: castles and different types of flowers.

Glue over it the two columns of 16 cm. On the columns place the element with the window and the princess.

Stick the two columns of 12 cm and the stripe of 4x18 cm over them.

Stick the last two columns and the stripe of 3x18 cm.
